Dear Sponsors,

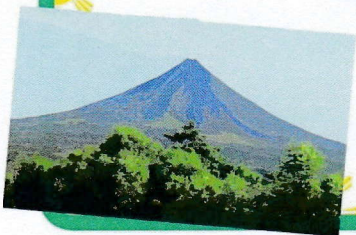

Hello, how are you now? I'm sure you're good like me here with my family.

I want to share to you about my studies, last few weeks we're back to modular and face-to-face classes due to summer heat. I enjoyed very much on our face-to-face classes because I personally meet my teacher and classmates. I enjoy learning new things physically that we used to do before the pandemic.

I always play a basketball after my class; I am always happy with what I do. Don't worry about my studies because I am always improving, and I will definitely be able to finish.

Thank you very much for supporting my studies, it's a big opportunity being in Children International. Take care and stay safe. God bless you always!

Sincerely Yours,  
Axcel Yohanne D. Domingo
